Fresh Produce for 2017

Order your farm-fresh produce for the summer season. Our CSA (Community Shared Agriculture) allows you to purchase produce right after it was harvested! We plant, grow and harvest a HUGE variety of high-quality produce throughout the growing season. Members pick up their share at the farm from Mid-June to Thanksgiving! Sign up and support local, sustainable farming!

Benefits of joining our CSA

- Real Food! **Heritage** seeds grown in real soil (no chemicals, no gmo seeds, our varieties are bred for their taste!)
- Local Food! Your produce isn't tired from driving.
- Farm-fresh! More vitamins, better taste.
- Health benefits! It's easier to eat more vegetables when they taste great.
- Family benefits! Children will often eat fresh what they dislike canned, frozen or shipped.
- Community benefits! Supporting local sustainable agriculture for now and the future.
- Recipes! We'll share our favourites.

What's in my Share?

You can expect somewhere between 5-15 varieties of fresh produce weekly. You choose the amount you would like (share size); we are in charge of growing and harvesting it for you!

Our shares always include baby salad greens, and a selection of seasonal produce. In June, strawberries, spinach, peas, and green onions are ready. As summer progresses, tomatoes, peppers, garlic, new potatoes, sweet corn, squash, and much more become available. We are committed to growing the best quality and tastiest varieties of fruits and vegetables that we can!

Example share from June!

Limited quantities of shares are available, sign up today!

We will be in touch with you shortly.
Thank you for your participation!

CSA Membership Details

Share pick-up

Come to the farm on
Tuesdays or Saturdays. If
these times don't work for
you, just let us know and

we can find a time for you to come!

*If you are unavailable to pick up your share (you are on
vacation, etc.) you can send someone to pick it up for
you, or call and we can arrange something.*

Share Sizes

We offer a variety of share sizes to match
our members' needs. Our regular share is
designed to provide weekly fresh produce to
a family of 4, but would also suit 2 vegetable
lovers. Our large share is available for the
larger or vegetable-loving family. The small
share, suitable for 2 people, can also be a
great way for a family to experiment with
belonging to a CSA. Still unsure? Try our
'salad-lover' share; this option gives you
weekly predictability: fresh mixed baby
greens and a small selection of fresh salad
ingredients.

Feel free to share a share with a friend!

**** Refer a friend and get one week free ****

Just have them put your name on their sign-up
sheet.

more!

Pastured Poultry

High quality delicious
free-range chickens and
turkeys. Place your order
today!

Eggs -- Free-range

Chicken and Duck eggs (March - Nov.)

Our customers have told us that once they tried
our eggs they can't go back to store-bought!

Did you know... Duck eggs can be used in all your
recipes the exact same way as chicken eggs. They
taste the same, but the yolks are a little bit larger.
They are preferred for baking by chefs! Duck eggs are
higher in protein and lower in cholesterol than chicken
eggs.

Why aren't eggs available in winter? We give our
layers their natural break by not providing them with
artificial light through the winter. This gives us a nice
break as well!

**Amaranth Springs Farm thanks you for your
